Dear Customer,

Thank you for purchasing this Hendi appliance. Please read these user instructions carefully before connecting the appliance in order to prevent damage due to incorrect use. Read the safety instructions in particular very carefully.

Safety Regulations

- Incorrect operation and improper use of the appliance can seriously damage the appliance and injure users.
- The appliance may only be used for the purpose for which it was intended and designed. The manufacturer is not liable for any damage caused by incorrect operation and improper use.
- Keep the appliance and electrical plug away from water and any other liquids. In the unlikely event that the appliance should fall into water, immediately pull the plug out of the socket and have the appliance checked by a certified technician. Not following these instructions could give rise to life-threatening situations.
- Never try to open the casing of the appliance yourself.
- Do not insert any objects in the casing of the appliance.
- Do not touch the plug with wet or damp hands.
- Regularly check the plug and cord for any damage. Should the plug or cord be damaged have it/them repaired by a certified repair company.
- Do not use the appliance after it has fallen or is damaged in any other way. Have it checked and repaired, if necessary, by a certified repair company.
- Do not try to repair the appliance yourself. This could give rise to life-threatening situations.
- Make sure the cord does not come in contact with sharp or hot objects and keep it away from open fire. To pull the plug out of the socket, always pull on the plug and not on the cord.
- Make sure that no one can accidentally pull the cord (or extension cord) loose or trip over the cord.
- Always keep an eye on the appliance when in use.
- Children do not understand that incorrect use of electrical appliances can be dangerous. Therefore, never let children use home appliances without supervision.
- Always pull the plug out of the socket when the appliance is not being used and always before cleaning.
- Warning! As long as the plug is in the socket the appliance is connected to the power source.
- Turn off the appliance before pulling the plug out of the socket.
- Never carry the appliance by the cord.
- Do not use any extra devices that are not supplied along with the appliance.
- Only connect the appliance to an electrical outlet with the Voltage and frequency mentioned on the appliance label.
- Avoid overloading.
- Turn off the appliance after use by removing the plug from the socket.
- Always remove the plug from the socket when filling or cleaning the appliance.
- The electrical installation must comply with the applicable national and local regulations.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.

Special safety regulations

- Do not use the appliance to slice frozen food, meat that has not been deboned, fish or any non-food products.
- Though the appliance has built-in safety features, keep away from the blade and moving parts at all times.
- Stop using the appliance as soon as the blade's diameter has become thinner than 6 mm. Replace the blade.

EN

Preparations before using for the first time

- Check to make sure no parts are missing. If any parts are missing, contact your supplier.
- Remove all the packing material.
- Clean the appliance with lukewarm water and a soft cloth.
- Clean the blade. Be careful: the blade is very sharp.
- Keep open a space of at least 10 cm around the appliance to allow for adequate ventilation.
- Position the appliance in such a way that the plug is always accessible.
- If the sharpening device is not attached, proceed as follows:

1. Top view of the appliance

2. Attach the sharpening module in such a way that the blade does not move between the wheels.

3. Secure the sharpening device to the machine by tightening the holder. Check to make sure that the sharpening device is well secured before using the machine.

EN

NOTE! The sharpening device is equipped with a safety switch. If the sharpening device is not properly attached, you will not be able to use the appliance.

- Attach the hand guard.

1. Place both screws in the carriage.

2. Attach the hand guard.

3. Place the two washers over the bolts.

4. Screw on the two dome nuts.

NOTE! You are advised not to use the appliance if the hand guard is not attached as instructed! These are safety features that will prevent possible injury. If you do not attach these features, there will be a risk of injury.

Instructions for use

- Position the appliance so that the on/off switch is facing the user.
- If the blade sharpener has not been installed, proceed as follows:
 - Position the blade sharpener in its support so that the blade does not extend between the gears.
 - Tighten the safety screw on the blade sharpener.
- Turn the appliance off (the appliance is equipped with a safety switch and will turn off automatically if the sharpening device is removed)
- Push the plug in the wall socket.
- Turn the dial with the graduated scale to the desired slice thickness.
- Switch on the appliance using the on/off switch. The blade will start to turn.
- Put the food product on the carriage and adjust the clamp to hold the product firmly in place. Make sure the product is positioned against the stop plate.
- Once the product has been sliced, switch off the appliance with the on/off switch. The blade will stop turning.
- Turn the thickness dial back to "0".

How to Lock the slicer

- ① To turn the knob in anti-clockwise direction

- ② Continue to turn the knob until it is loosen COMPLETELY

- ③ Move the carriage to the proper position, the slicer will be locked automatically

How to Unlock the slicer

- ① To turn the knob in clockwise direction to unlock the slicer. The knob should be turned COMPLETELY to tighten the carriage

Cleaning and maintenance

- Turn the slice thickness dial in counter clockwise direction to the "0" position,
- Always pull the plug from the socket before cleaning the appliance.
- Warning: Never submerge the appliance in water or other liquids!
- Use a damp cloth to clean surfaces (solution of water and a mild cleaning agent).
- Never use corrosive or abrasive cleaning agents.
- Do not use sharp or pointed objects for cleaning. Do not use benzene or solvents! Clean with a damp cloth. Use washing-up liquid if needed, but never abrasive cleaning agents.
- Clean the blade with alcohol. WARNING! The blade is extremely sharp.
- If the food carriage stops sliding smoothly, lay the machine on its side. Clean the slide bar carefully and lubricate it with Vaseline

Problem

Problem	Possible cause	Solution
Appliance does not slice well	Blunt blade	Sharpen blade
	Dirty appliance	Clean the appliance
Appliance stops slicing	Overheated motor	Let the machine cool off for an extended period. The motor's safety thermostat will reset itself automatically.
Carriage does not slide	Dirty slide bar	Clean the slide bar and lubricate with Vaseline
Blade stops when product is being cut	v-belt worn out or dirty	Replace or clean the v-belt

When in doubt, always contact your supplier!

Sharpening the blade

Sharpen the blade when it becomes blunt. The blade is extremely resistant to wear. If used regularly and properly, it should only need to be sharpened once a year.

- Pull the plug from the wall socket.
- Turn the thickness dial to "0".
- Clean the blade.
- Unscrew the sharpener's locking knob.
- Lift the sharpener from the locking device and turn it 180°.
- Both sides of the blade should have 1 sharpening stone.
- Lower the sharpener until it slips back into the locking device.
- Fix the sharpener in place by tightening the locking knob.
- Switch on the appliance. The blade will start to turn.
- Use the button to press the tilted sharpening stone

against the blade and keep it there for 2 minutes. The sharpening stone should turn along with the blade.

- Use the button to press the vertical sharpening stone briefly against the blade to remove burrs. The sharpening stone should turn along with the blade.
- Switch off the appliance and pull the plug from the wall socket.
- Unscrew the sharpener's locking knob and clean the sharpening stones with alcohol.
- Replace the sharpener in its original position on the appliance and tighten the locking knob to fix it in place. The blade must not extend between the sharpening stones.
- Clean the blade with alcohol. WARNING! The blade is extremely sharp.
- Push the plug in the wall socket.
- The appliance is ready for use.
